

Summit Sports Inclusion, Anti-Discrimination and Anti-Racism Policy

Updated October 11, 2024

Summit Sports seeks to promote the positive social and athletic enjoyment of all activities under our multi-sport umbrella. Through our Club activities and for our members, we are committed to providing a supportive and respectful environment for all members and staff, regardless of any differences based on sex, sexual orientation, gender identity and expression, race, age, creed, ability, religion or national origin, and all other grounds protected from discrimination by the Ontario Human Rights Code. All Summit participants are expected to uphold these values and actively maintain an environment that fosters respect, is anti-discriminatory and actively anti-racist.

Commitment to Learning & Continual Improvement

We are committed to learning and developing a long-term strategy for inclusiveness within our leagues, tournaments, and events. While we have always aspired to be an inclusive organization built on “fun for all, kindness always”, we’ve learned a lot and are committed to learning about ways in which we can continually improve.

We are undertaking several steps to make Summit the best it can be. Some of these steps have already occurred, some are in progress, and many will be ongoing. These steps include, but are not limited to:

- Ensuring all members read and agree to this policy upon registering
- Renewing and updating our **Zero Tolerance Policy (pg. 5)** for leagues, tournaments and events.
- Revising gendered rules and language in league and tournament rulebooks, as applicable.
- Continuous education & workplace training for all staff, focused on diversity, inclusion, and allyship
- Evolving our hiring policies to become a better equal opportunity employer
- Providing resources for members on how to be an ally on and off the field
- Continually evaluating our organization’s progress towards a more inclusive sport system

Summit is committed to ensuring our leagues, tournaments and events are a safe and welcoming space for all BIPOC and 2SLGBTQIA+ participants, and to creating and maintaining a safe environment where all individuals are treated with respect and dignity, can contribute fully, and have equal opportunities to play.

If you have any recommendations on how the Summit can improve this policy, and/or better support Inclusion, Anti-Discrimination and Anti-Racism within our leagues, and have the

capacity to share with us, we would love to hear from you. We are open to and truly appreciate your feedback. Please reach out to the Summit team via email at info@playwithsummit.ca or by phone at [\(519\) 439-4263](tel:5194394263).

Informal Resolution

The Summit encourages individuals to first attempt to resolve conduct issues informally amongst themselves or with the help of a present Game Host, whenever possible. GLOSSARY OF TERMS

2SLGBTQIA+: Two (2) Spirited, Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Asexual, + (Pansexual, Agender, etc.)

o Two (2) Spirited: An identity for people who have both a masculine and a feminine spirit, used by some First Nations peoples to describe their sexual, gender and/or spiritual identity.

o Lesbian: An identity for female-identifying people who are sexually and/or romantically attracted to other woman.

o Transgender: An identity for people whose gender identity differs from what is typically associated with the sex they were assigned at birth. Trans people may or may not choose to alter their bodies hormonally and/or surgically.

o Queer: This term makes space for the expression of a variety of identities outside of rigid categories associated with sex, gender or attraction. Historically a derogatory term used as a slur against 2SLGBTQIA+ people, it has been reclaimed by many as a positive way to describe themselves.

o Intersex: An umbrella term to capture various types of biological sex differentiation. Intersex people have variations in their sex characteristics, such as sex chromosomes, internal reproductive organs, genitalia, and/or secondary sex characteristics (e.g. muscle mass, breasts) that fall outside of what is typically categorized as male or female.

ANTI-RACISM: "The active, ongoing process of dismantling a system of racial inequity and creating a new system of racial equity. Anti-racism demands that this work be done at the individual, organization/institutional and cultural levels in order to effectively address systemic racism."

BIPHOBIA: The fear, hatred or aversion of people who are attracted to more than one gender.

BIPOC: Black, Indigenous, People of Color

DISABILITY TERMINOLOGY: "A disability is a functional limitation or restriction of an individual's ability to perform an activity. The word 'disabled' is an adjective, not a noun. People are not conditions. It is therefore preferable not to use the term 'the disabled' but rather 'people with disabilities' [person-first language]."

o For more insights, learning and to view how we can adjust our language, please refer to the Government of Canada's 'A Way with Words and Images' project, [here](#).

FIRST NATIONS PEOPLES: 'Indigenous Peoples' is a collective name for the original peoples of North America and their descendants. Often, 'Aboriginal Peoples' is also used. The Canadian Constitution recognizes three groups of Aboriginal Peoples: First Nations, Inuit and Metis. These are three distinct peoples with unique histories, languages, cultural practices and spiritual beliefs.

GENDER VS. SEX:

o "A person's GENDER refers to socially constructed roles, behaviours, expressions, and identities of girls, women, boys, men, and gender diverse people. It influences how people perceive themselves and each other, how they act and interact, and the distribution of power and resources in society. Gender identity is not confined to a binary (girl/woman, boy/man) nor is it static; it exists along a continuum and can change over time."

o "A person's SEX refers to a set of biological attributes in humans, primarily associated with physical and physiological features including chromosomes, gene expression, hormone levels and function, and reproductive/sexual anatomy. Sex is usually categorized as female or male, but there is variation in the biological attributes that comprise sex and how those attributes are expressed."
